

The first few days at your new workplace ...

The **Centre for Communication and Information Processing (ZKI)** provides access to the campus network for all staff at the Magdeburg-Stendal University of Applied Sciences. Your central account will be created automatically as soon as the Personnel Department notifies the ZKI of your admission to the university as a member of staff. Please pick-up your login details from the ZKI in person either from Building 5, Room 1.07 at the Magdeburg Campus or from Building 2, Room 2.10 or 2.11 at the Stendal Campus. There you will receive a letter from us, which will include your user name, your initial password and your university email address.

You can use this central account to access various services provided by the university. To make it easier for you to access the services we provide, we have also posted this document in electronic format with the relevant hyperlinks under “Aktuelles” on the ZKI website. See: (<http://www.hs-magdeburg.de/zki>).

Please contact us with any questions you may have. The best way to get in touch is by sending an **email** to either zki-md@hs-magdeburg.de or zki-sdl@hs-magdeburg.de or have a look at our [FAQ](#).

The ZKI team would like to wish you a successful start at the university.

K. Hartmann
Manager

P.S.: We would also like to make you aware of the published University Statutes and Constitution as well as the ZKI User Regulations, compliance with both of which is mandatory at all times.

(View under “Regulations” at: <https://www.hs-magdeburg.de/hochschule/einrichtungen/zki/einrichtung.html>)
